
BUILDING A BETTER KENYA

BUILDING COMMUNITIES

Putting Kenyans First

The Jubilee Party is committed to helping all Kenyans build communities. We want to ensure that no one is left behind as we work together to deliver growth and prosperity that reaches and uplifts all Kenyans.

More Kenyans than ever before can now rely on continued electricity to light their way and enable them to relax with their family, complete their school work and continue economic activity into the evenings.

BUILDING RELATIONSHIPS

Good For Kenyan Business at Home and Abroad

The Jubilee Party is proud of the relationships this government has forged around the world, not only working with our traditional partners but seeking out new alliances with nations from every continent. These relationships are helping to ensure prosperity at home and greater security abroad - which in turn delivers greater safety at home.

We are committed to growing Kenyan export markets to help create more jobs and prosperity. Creating the environment for more direct foreign investment means creating new partnerships with world leaders and overseas companies.

BUILDING ONE NATION

A Prosperous Economy For All Kenyans

The Jubilee Party recognises the great strength that comes from the diversity of our wonderful country.

It is built upon the principle of unity under a shared vision. Our shared values shape our shared vision for Kenya - a modern, progressive nation that harnesses the energy, ideas and passion of all groups, all minorities, all peoples, working together to deliver a stronger economy and high quality public services.
