NEW JUBILEE PARTY TO SHAPE THE ASPIRATION OF THE NATION

The Jubilee Party will be formally inaugurated and publicly launched on Saturday, September 10 at the Kasarani Stadium, Nairobi by H.E. President Uhuru Kenyatta and H.E. Deputy President William Ruto.

Delegates from twelve registered political parties resolved to dissolve their Parties and join the Jubilee Party and the modern, inclusive, progressive political movement that it represents.

The following Parties joined Jubilee:

- Jubilee Alliance Party
- United Republican Party
- The National Alliance
- Party of National Unity
- United Democratic Forum
- Ford People
- Republican Congress
- Grand National Union
- Tip Tip
- United Party of Kenya
- New Ford Kenya
- Alliance Party of Kenya

Launching the Party, H.E. President Kenyatta said:

“Jubilee represents every part of our country, every group in our nation and is committed to uniting Kenyans under a shared vision of peace, progress and prosperity”

“Jubilee is a home for those with this shared vision for our country and for those with shared values and ideas for its growth and development. I am honoured and proud to welcome members into this modern, inclusive, progressive One Nation movement - a symbol of pride and confidence in Kenya’s future.

“Kenyans are ready for a more sophisticated political debate based on ideas and vision. We are ready to take the first bold step away from ethnically based politics. Our party and its institutions, procedures and purpose presented here in this constitution reflect the modern practices of a truly progressive democratic party.

“We welcome the active participation of all - in particular women, young people, disabled persons and minorities - to ensure that all voices are heard and that together we strengthen the Party’s mission to enrich and advance multiparty democracy and development in our great nation.

“For the past three years, the Jubilee Coalition Government has delivered constant, stable growth and development for all the people of this nation. Millions of homes connected to the grid; thousands of children brought into the digital literacy programme; hundreds of new roads under construction; dozens of fully modernised hospitals; and a railway that will revolutionise transportation of people and freight within the region entering the final phases of completion.

“Jubilee is proud not just to represent progressive politics, but to deliver progressive governance of this amazing country.

“Kenya will always be stronger together and in Jubilee every Kenyan can contribute ideas and help realise the aspiration of the nation.

“Tumaini letu ni tumaini la wakenya wote - kuendeleza Kenya mbele kwa amani ili wakenya wote wapate maendeleo na ufanisi mkuu.”
